

Proyecto- Viaje a un país latino

Español 2 Estudios

You are a travel agent and Sr. Matamoscas has just come into your office and request that you set up a trip to a Latin American country for him. He is very wishy washy so you need to set up two possible itineraries for him. One that you could call "El Cheapo" and the other would be the luxury package.

You need to persuade Sr. Matamoscas to choose you by using a powerpoint that presents him with both packages. Your presentation will include the following:

1. Información de un país latinoamericano (worksheet)
2. 2 price quotes cheap/expensive (worksheet)
3. PPT should contain:
4. 2 different places he could visit in the country (photos)
5. 2 different things he could do there
6. 2 different local items that he could buy as a souvenir
7. each photo should have a very short 1-2 sentence description.

Sr. Matamoscas will be visiting your office so you will need to be ready to make a short oral presentation to him describing your suggestions. Sr. Matamoscas will be deciding which travel agent he will be using so you need to convince him that you have the most to offer.
